Getting a mountain is a result enough in Vanilla WoW, and it is one of the great moments that you will experience during leveling. The mounts were mostly granted in the standard version of World of Warcraft. If you are an old school player in the game, you remember the truce of running on foot, but you probably also remember the experience of the wind blowing through the hair once you finally saved enough gold to buy one. Differences between media in Classic & Retail There are some great differences between the media you could use if you are playing the updated version of World of Warcraft. Before that, there's no bill to find your noble steed. You keep their your inventory. Second, cast time is 3 seconds in Classic compared to 1.5 seconds in the current version. Your mountain cannot swim, you will be disassembled if you jump into the water deep enough to swim in. There are also no available flying mounts, so you will not be able to skip large parts of the soaring map over them. The supports are bound on equipment, so if you have a friend who has a discount for a mountain you want, you can purchase them and can trade it to you. Level Requirements You will need to be level 40 to train your ability to ride a mountain. After that, you will need to hit the maximum level of 60 to be able to learn the epic driving ability for faster mounting. Skills and training The first and cheapest part of the process is purchasing your driving ability. This should cost only 20 Gold (16 Gold with discount) to get and allows your ability to ride a normal mountain. You will have to upgrade this skill in the future to drive the fastest Epic mount. You can only purchase the driving skill that matches your race, unless you are exalted with one of the other factions of the race. So, if you're an Undead, you'll be able to buy an Undead Riding and ride a Schelet Horse until you can improve your reputation with another faction. Alliance Factions & Trainers Dwarf (Ironforge Faction): Ram Riding Trainer: Ultham Ironhorn in Amberstill Ranch (Dun Morogh) Gnome (Gnomeregan Exiles Faction): Mechanostrider Piloting Trainer: Binjy Featherwhistle in Kharanoshuman (stormwind faction): night elf (darnassus faction): randal hunter in eastvale logging camp (elwynn forest) night elf (darnassus faction): tigre riding trainer: jartsam in cenarius enclave (darnassus) horde factions & trainers orc (orgrimmar faction): wolf riding trainer: kildar in the valley of honor faunder kodo riding trainer: kar stormsinger in bloodhoof village (mulgore) troll (darkspear trolls faction): raptor riding trainer: xar'til in sen'jin village (durotar) undead (undercity faction): undead horsemanship trainer: velma warnam in brill (tirisfal glades) mount you can discounts get a 10% discount on your purchase if you are honored with the faction from which you are purchasing a support and training. you can get an additional 10% discount if you are rank 3 in pvp, but this will not be live until a future update (phase 2.) warlocks & paladins these two classes can complete a search chain that will give them a free mountain. I put free in quotes because they still require an investment of time to get the mountain. Time is a friend of money! These classes also have a research chain that will give them the fastest mountain at level 60, but both these missions cost a considerable amount of gold. those game missions will not be available until phase 2. update Where-to buy mountains and mountain style the assembly seller should be right next to the person you got your workout with. each of these sellers will let you buy aor epic version of a support. alliance mechanostriders (gnome mount) can only be used by dwarves and gnomes! That's all you have to do to get enough gold for your first mount. To get the second mountain, however, you will need a much more focused agricultural strategy. Make sure you check out our guide for gold agriculture here. Follow us on Twitter and Facebook to get updates on your favorite games! Games!
